

5 Day Intensive Course

CISM™

Certified Information Security Manager™

Enhanced CITREP Endorsed
(Terms and Conditions Apply)

The ISACA® Certified Information Security Manager™ is the fastest growing and arguably the most prestigious qualification available for Information Security managers today.

CISM properly recognises that security is first and foremost a management rather than a technical issue. CISM defines the core competencies and international standards of performance that information security managers are expected to master. It provides executive management with the assurance that those who have earned their CISM have the experience and knowledge to offer effective security management and advice.

This 5-day training program is presented by international security expert Krag Brotby, co-author of the official ISACA CISM Review manual. The course provides an intense environment in which participants can acquire, thoroughly and properly, the skills and knowledge expected of a world-class information security manager. In the process the course provides outstanding preparation for the CISM exam.

Certified Information Security Manager™

Background to the CISM Qualification

The CISM has evolved from a comprehensive analysis of the tasks performed by, and knowledge areas that are required of, successful information security managers around the world. Five core competencies have been identified:

- **Information Security Governance**
- **Risk Management**
- **Information Security Program Management**
- **Information Security Management**
- **Response Management**

The CISM qualification has been created to measure and validate the attainment of international standards of performance that information security managers are expected to master. It provides executive management with the assurance that those who have earned their CISM have the experience and knowledge to offer effective security management and consulting services.

Who Should Earn the CISM Designation?

CISM is more than an entry-level certification. It is specifically developed for the information security professional who has acquired experience working on the front lines of information security. Individuals with three years or more of experience managing the information security function of an enterprise or performing such duties will find CISM tailored to their knowledge and skills.

Benefits of CISM Certification

- **Recognition of attainment of advanced job skills as required for an information security professional**
- **Worldwide recognition as an information security manager**
- **Opportunity to build upon existing certifications/credentials already earned**
- **Provides tangible evidence of career growth**
- **Potential for a salary increase and/or promotion**

Exclusive Warranty

This course is the result of extensive research and development combined with high-level expertise. PDA backs the quality of this course unreservedly with an exclusive warranty. If for whatever reason the unthinkable should happen and you do not pass the CISM exam the first time, you are entitled to re-sit the entire course, or any part thereof, for free on any subsequent date.

Course Objectives

This course has been independently commissioned with two objectives:

1. To provide an environment in which security professionals can acquire, thoroughly and properly, the skills and knowledge expected of a world-class information security manager. Whether or not you intend to sit for the CISM exam, this course is a powerful way to equip yourself with the knowledge of the five core competencies that define the successful information security manager
2. To maximise your prospects at the CISM exam if you choose to sit it.

Who Should Attend

The CISM designation is for Information Security professionals who have 3-5 years of front-line experience with the security of information. This credential is geared towards Information Security managers and those who have information security management responsibilities.

Course Structure

This 5-day course is structured to follow the CISM review manual and examination flow. A full day is provided for each of the core competencies and associated task and knowledge statements, thereby ensuring a detailed and thorough coverage of all areas that will be tested. The fundamental thrust of the examination is on understanding the concepts, not on memorising facts. As a result, the course will be presented in an interactive manner to ensure the underlying concepts are understood and examination questions can be analysed properly to achieve the correct answer.

Credits for Other Qualifications

If you have other security qualifications you may be entitled to a one, or even two, year experience waiver. Please refer to our website for details.

What You Receive

- Official CISM Review Manual
- CISM 100-Question Practice Test Manual
- A structured program of assignments and exercises to complete after the course and before the exam
- Email support after the course (up to two hours per participant)
- Exclusive 2-hour exam-prep webinar with Krag Brotby

CISM Exam

Exam Closing Date: Wednesday 7 April 2010
For Exam Held on: Saturday 12 June 2010

The CISM exam is set, administered and marked by ISACA, the Information Systems Audit and Control Association® (www.isaca.org) with chapters in more than 220 countries worldwide.

The CISM exam is held twice per year and consists of 200 multiple-choice questions that cover the CISM job practice areas. Comprehensive information is available in the 16-page pdf "CISM Exam Bulletin of Information" which can be downloaded from the ISACA web site or from the CISM page on our own web site.

You must register for the exam directly with ISACA. If booking directly with ISACA you must register before the Exam Closing Date. ISACA does not accept late registrations under any circumstances. You can register online at www.isaca.org/examreg.

Presenter: Krag Brothy

Presenter Krag Brothy has more than twenty years in the computer security field with a focus on governance and architecture. He is co-author of the official ISACA CISM Review manuals and related presentation materials. Brothy has served on the ISACA security practice development committee and has been appointed to the Test Enhancement Committee which defines the practice area for the coming years. As a contributor of CISM examination questions, Krag has an intimate understanding of the type and level of security governance knowledge required to be successful at the examination.

An early contributor to SABSA methodology and developer of the Business Process Assurance model (BPA) and the Rapid Security Assessment Model (RSAM), Krag has extensive experience with security governance issues and practices. He is author of Information Security Governance: Guidance for Boards of Directors and Executive Management published by the IT Governance Institute (2006).

Brothy is a frequent presenter at numerous conferences globally and conducts training seminars for information security governance and information security management and metrics throughout Asia, Australia, the Middle East, and the US, including training for the US Department of Defence.

He has authored numerous white papers and articles on risk management, PKI, and training and is a foundation patent holder in the early days of digital rights management.

Clients have included Microsoft, Unisys, AT&T, Alyeska, Countrywide Financial, Informix, VISA, Verisign, Digital Signature Trust, Australia Post, ZANTAZ, Bank Al Bilad, JP Morgan Chase, Singapore Government, Certicom, Paycom among others.

He is currently focused on an information security metrics project for ISACA as the researcher and author in addition to completing reference books on security metrics and security governance for Auerbach and Wiley and Sons. Mr Brothy is based in California, USA.

HOW TO REGISTER

1.  Register Online
www.pdatrain.com.sg
2.  Send your details by email
learn@pdatrain.com.sg
3.  Fax the Enrolment Form below to:
Fax: 6227 2885
From any other country 65 6227 2885
4.  Any queries please call Customer Service
Tel: 6227 2883
From any other country 65 6227 2883
5.  Post the completed Enrolment Form to:
PDA Professional Development Associates Pte Ltd
Penthouse Level, Suntec Tower Three,
8 Temasek Boulevard, Singapore 038988

COURSE DETAILS

FEES:	(per delegate)		S\$
CISM™ Certified Information Security Manager	Course	Exam	
Standard Fee	3950 +GST	750 +GST	
ISACA Members*	3555 +GST	550 +GST	

NOTE

1. To claim these reduced fees you must quote your ISACA membership number on the enrolment form. If you are currently not an ISACA member and wish to become one, please refer to the ISACA Singapore Chapter www.isaca.org.sg
2. The deadline for registration for the December 2009 CISM exam is 23 September 2009. If you wish to register for the exam via PDA then your registration MUST be received by PDA by 15 September 2009. Thereafter you must register direct with ISACA Head Office. Please note that ISACA WILL NOT accept late registrations under any circumstances.
3. Payment MUST accompany exam registration unless other arrangements have been made.
4. The CISM exam is held twice per year in June and December. It is possible to enrol in just the course and not the exam, or to undertake the exam at a later date. There is no formal closing date for course registration. However, class size is limited so early enrolment is recommended.

COURSE INFORMATION: The course is held from 9.00am to 5.00pm with registration from 8.30am on the first day. Upon enrolment you will be sent a confirmation letter giving full details.

TERMS: The course is of limited class size. To ensure admission, fees must be paid in advance or else an official Purchase Order Number must be supplied. Fees include tuition, lunch, coffee breaks and all course materials. An invoice will be forwarded to you upon receipt of enrolment.

CANCELLATIONS: Cancellations of the course fee will be accepted up to 10 working days before the course. After that time no refunds can be given but substitutions can be sent at any time. Cancellations of the examination are not refundable as per ISACA rules.

CITREP: The Enhanced CITREP supports up to 80% of the course and/or exam fees, capped at \$3000 (course and exam) / \$500 (exam only) per trainee. CITREP is a training incentive programme to equip Singapore infocomm professionals with critical and emerging skills, thus enabling them to enhance their employability and to improve their organisations' competitive advantage. The Enhanced CITREP is applicable for courses and certifications commencing between 1 April 2009 and 31 March 2011. Organisations who sponsor their employees for training can benefit from "Absentee Payroll" support. Terms and conditions apply. Please visit www.ida.gov.sg/citrep for more information or email PDA at learn@pdatrain.com.sg.
